CARRER OBJECTIVE

I'm a Innovative Computer Science student passionate about combining technology and design. Experienced in software development, UI/UX design, and multimedia production, with proficiency in Firebase, MongoDB, and Blender. Eager to contribute through Flutter or React opportunities, and adaptable to any new frameworks. Open to remote work immediately, and available for internships starting December 2025.

TECHNICAL SKILLS

Languages : HTML,CSS,JavaScript,dart,C Lang,Python,Java
Frameworks : Flutter, ReactJS,
Backend : Node.js, Firebase, MongoDB
Databases
Design Tools : Figma

EDUCATION

Veltech University <i>Bachelor of Technology in Computer Science& Engineering (4sem-7.6CGPA)</i>	Avadi, Chennai,India Sep 2023 – Apr 2026
Krishnaswamy memorial polytechnic college. <i>Diploma in computer science Engineering (76.81%)</i>	Cuddalore,Tamilnadu,India Dec 2019 – May 2022
st joeshp's higher secondary school. <i>School of Secondary Education (4.4 GPA)</i>	Cuddalore,Tamilnadu,India May-2019

PROJECTS

Project	<u>Smart Plant Health</u>	<u>Source Code</u>
- This project is used to detect plant diseases and it will show the curing tips. - Developed using Flutter, Firebase, and TensorFlow.		
Project	<u>Three.js Portfolio</u>	<u>Live Demo</u> <u>Source Code</u>
- An interactive 3D portfolio themed around *Courage the Cowardly Dog*, showcasing projects with immersive navigation. - Built using Three.js with 3D models from Blender and animations powered by GSAP.		

HOBBIES

Working on student college projects during free time
Developing client projects to gain real-world experience
Learning and experimenting with new frameworks and technologies, including 3D modeling

ABOUT ME

Like a machine learning model, I continuously train myself with new knowledge and skills. My laptop is my world, where I experiment, build, and create solutions. With a strong commitment to learning and completing tasks on time, I believe hiring me will bring dedication, innovation, and efficiency to your company.
